Hank:

Returned for your review and forwarding to the DCI is the attached memo.

Let me first state that the original submission of this memorandum requested no new approvals by the DCI. It was, and is, merely a compilation in one document of all individual approvals and directives he made after reviewing the "Report of the Security Review Task Force Studying the Impact of the Moore and Boyce/Lee Cases."

You returned the original submission with two questions:

- "a) some indication of cost in manpower and dollars; and
- "b) some coordination with ICS."

Your first question has been answered by the inclusion of a new paragraph 4 in the memo. In this connection incidentally, I haven't the slightest idea at this time where those "fifteen additional staff positions" will come from.

As for your suggestion for coordination with ICS, I find it difficult to undertake coordination with ICS with directives given us by the Director. It seems to me that what we should do is keep ICS abreast of what is going on--and they have already been made aware of some of these directives--but I believe we would be in a prejudicial position with the Director if we endeavor to "coordinate" instructions he has given to us. Having said that, I obviously bow to your position. You have other thoughts on this matter.
